

**FINALLY,**  
THE WATERWORKS  
INDUSTRY HAS  
THE RIGHT TOOL!

**MJ-HAMMER**

We're making it easier for you to ensure  
positive inspection outcomes

MADE IN THE  
**USA**

PATENTED  
TECHNOLOGY

## Intelligent Design

- The MJ Hammer strike surface matches the radial thickness of the gasket
- Opposing head alignment allows you to remain in a single spot and access the full radius of the gasket
- The weight and design is specific to allow for enough force to reduce the total number of strikes needed to install the gasket

## **One Solution**

**For use on all mechanical  
joint water pipes & water pipe  
fittings from 3" to 72"**

- Water Fittings
- Gate Valves
- Fire Hydrants
- Dresser Couplings

## Time & Money Saving

- ★ **Reduce** Your Project Time
- ★ **Control** Your Project Cost
- ★ **Improve** Precision and Fit
- ★ **Decrease** Occurrence of Leaks

## Color Availability

The MJ-Hammer is available in 4 colors.
